

On behalf of the Women Making a Difference Committee, a public health advisory group to the Mobile County Health Department, we would like to encourage you to participate in Creek Fest, the revitalization of Three-Mile Creek. The event on May 11 will celebrate the pending installation of a recreational biking and walking trail and kayak launch along Three Mile Creek!

Three Mile Creek is a historic waterway in Mobile that provided the city's drinking water supply until World War II. Three-Mile Creek begins near the University of South Alabama, and makes its way through the city before emptying in the Mobile River and then Mobile Bay. Unfortunately, as the creek passes through West Mobile, Springhill, Toulminville, Midtown and Downtown, it picks up the city's storm water runoff, including the unsightly and unhealthy trash that ends up cluttering the creek bank.

Creek Fest will be held on Saturday, May 11 from 10a.m. to 2 p.m. The event is a free family-friendly celebration including a cane pole fishing tournament, live music, food and educational exhibits.

Exhibitors:

- Will need to bring their own tent (table and chairs if possible)
- Provide attendees with an educational giving
- Giveaways are encouraged
- Please note we will not have power

Please let us know if you have any questions and if you can be a part of our event to create a better park for us all!

Sincerely,

Shana Jordan
